

Spiritual Clearings

By Diana Burney

A blend of spiritual and practical material, **Spiritual Clearings** offers a comprehensive checklist of situations that may require a personal, home, property, or business Clearing, from feeling “stuck” in life, to having trouble selling a home.

Also discussed are different categories of energy, its presence in the invisible world, and the unseen influences that may be drawn to discordant energy. The book’s Clearing exercises include prayers that invoke the assistance of the Archangels and Ascended Masters, incantations and chants from different spiritual traditions, and the visualization of the Violet Flame.
