

Hummingbirds Don't Fly In The Rain and *The Universe Speaks: A Heavenly Dialogue*

On December 23, 2007, a small private plane carrying author Kim Klein's thirteen-year-old daughter, her ex-husband, and her daughter's best friend crashed into the side of a volcano in Panama, killing all on board except the friend.

The event made international headline news: Kim's ex-husband was an internationally known hedge-fund manager, whose wealth included islands off the coast of Panama, a fabulous resort, ranches, planes and more. Talia was their only child.

In *Hummingbirds Don't Fly In The Rain*, author Kimberly Klein relives the gut-wrenching events in Panama, reveals painful details of the strained relationships between her and her ex husband, her daughter Talia's life with her father, the aftermath of the accident, as well as something truly wonderful- while lying in agony after receiving the news of her daughter's death, Kim suddenly feels a pressure around her left wrist. She realizes that Talia is trying to communicate with her from the other side! *Hummingbirds Don't Fly In The Rain* is a suspenseful, dramatic real life story that ultimately brings love, peace, and healing to the author and the readers.
